7 Madison Police Are Named To New Ranks

Lionberger Promoted To Captain; Pazio, Morgan Lieutenants

Appointment of a Madison police captain, two lieutenants and four sergeants retroactive to Feb. 1 was approved Tuesday night by the city council. The promotions were recommended by the Board of Police Commissioners. The action follows advancement of Stanley Wojcik from captain to chief when Barney Founda, former chief, took office as county sheriff in December.

Lieut. Maion J. Lionberger was promoted to the first vacancy, and the department's two sergeants, Emmett "Lefty" Pazio and James P. Morgan, were named lieutenants.

Sergeant rank was approved for four patrolmen, John Maers, Edward Zabotka, Frank Duto and Rudolph Uherick. Maers, who also is deputy probate clerk, is the brother of Mayor Stephen Maers and lost the 1958 sheriff race by a narrow margin.

Lionberger has been a member of the Madison department for about 20 years and advanced through the ranks in obtaining the top post below that of chief. He resides at 1543 Third street, several doors from the police station.

Long Service On Force
Morgan, who resides at 717 Jackson street, Madison, joined the force in 1942 and Pazio, 1648 Fifth street, became a police officer in 1947.

Duto, also city humane officer, has been with the police department since 1950. Zabotka was 1952, Uherick since 1953 and Maers since 1951.

Zabotka lives at 101 McCormick avenue, Maers at 1608 Elizabeth street, Duto at 1808 Fifth street and Uherick at 2035 McClelland avenue.

Examinations for promotion were given several weeks ago, Madison council members were advised by the police board.

May Buy Police Dog
Other aldermanic business Tuesday night also was related to the police.

Mayor Maers suggested that the city purchase a dog for use in police work, and it was decided to determine the cost and training that would be necessary.

The dog would be trained to work with a patrolman.

Lead Blown Into Boy's Eyes Removed Safely

David Wood, 14, of 1738 Second street, Madison, contacted a successful scientist's experiment with the aid of a friend Tuesday afternoon, but a subsequent lead explosion sent particles into his eyes. After treatment at St. Elizabeth Hospital and an eye specialist's office, he hopes to resume attendance at Madison high school next week.

Wood and Bill Becker melted lead in the yard of the Becker home, 2037 Fourth street, and poured it into a pipe, which they were using as a mold to create round lead weights. The attempt worked out as they expected, but cooling of the metal caused fragments of lead to fly upward, injuring the Wood boy.

It is believed that all of the lead has been removed from his eyes, and he is to see the specialist again today.

Chas. W. Signaigo, Businessman 30 Years, Dies At 77

Mr. Signaigo's wife, Ella, preceded him in death last Dec. 22. Funeral services were conducted this afternoon at the First Baptist Church, with interment at Sunset Hill Cemetery.

An obituary notice appears elsewhere in this issue.

GC Jaycees Seek Award Nominees

Nominations for the "outstanding young man of 1962" are now being sought by the Granite City Junior Chamber of Commerce.

Alderman Alvin Barnes III, president, nominations will be received from organizations or individuals.

Presentation of the third annual Jaycee Distinguished Service award will be made at the Jaycees Feb. 20 "bonnet" night, which Richard Thomas of Sedalia, Mo., a national Jaycee vice-president, will be the speaker.

Barnes said candidates for the award must be between the ages of 21 and 35 and selection will be on the basis of achievement, leadership and service to the community.

Past recipients have been former alderman Arthur Wierler for 1961 and Earl Parsons for 1960.

Boy Scout Week Begins, Judge Displays Saturday

The 1963 Cub Scouts, Boy Scouts and Explorers in the United States district of the Catholic Mound Council are observing the 33rd anniversary of the scouting movement during Scout Week, today through next Wednesday, with the theme of "Strengthen America... Be Prepared, Be Fit."

Opinions Sought On Sewage Plant Engineer Contract

With the possibility of the sewage treatment plant agreement between the city and the Chester Engineers being resubmitted to the city council for reappraisal, Alderman Mrs. Gabrielle Bertine appealed to Granite City's Monday night council to make their opinions known to council members.

Mayor Davis, who was not present for the session, confirmed this week that the agreement has not yet been signed and that the city is conferring with representatives of the Pittsburgh, Pa., firm.

The agreement which includes a \$25,000 added fee for tests of the sewer content and flow was approved by a nine-to-four vote at the Jan. 21 session. Since then it has been in the hands of City Atty. John Gifford, who said he is making minor revisions.

Whether or not the \$25,000 added fee will be revised could not be learned.

The firm is to receive the \$25,000 fee in addition to regular engineering fees for design, construction and supervision of the sewerage system.

The city engineering firm of Sheppard, Morgan & Schwab, which surveyed the sewers for the proposed drainage and pollution treatment plant, has offered to do the entire job with regular engineering fees, without an added charge for pollution tests and sewer flow studies.

Mrs. Bertine pointed out Monday night the council receives "numerous complaints about high rates for the things, and now I'd like them to come in before this is voted on again."

She commented the appeal would do little since the council last night ignored persons signed by the city to build the treatment plant.

The following are recovering at St. Elizabeth Hospital from major surgery which they underwent during world war II: Gregory, 2057 Johnson road; Mildred Hendricks, 2230 Cleveland; Thelma Euliker, Route Four, Edwardsville; Hazel York, 1725 Fifth street, Madison; Lattie Palmer, 1237 Madison avenue.

3 DAYS WITHOUT A QUARTER TRAFFIC DEATH

The local firm's reports have been termed "comprehensive and in great detail" by officials of the state Sanitary Water Board which has ordered the city to build the treatment plant.

Alderman Donald D. Partney stressed Monday night the city must decide how it will finance the project—whether by general obligation bonds or with revenue bond issue.

When we'll know how many industries will be using the city facilities or if they'll go into their own treatment operations, Partney said, he would like to see the city to spend \$25,000 it can save. The home firm better understand the problems and can compile the data needed.

Pay Asked This Year Equivalent To 14-Cent Rate

GC Schools, Union \$352,000 Apart In 2-Year Pact Talks

(Third of a series)

Just how far apart the Granite City school board and teachers are depends upon one's point of view, but the actual figures for the two-year period under negotiation is \$32,778. The last offer is \$287,650 and the school board's is \$304,428.

Such figures by themselves afford no basis for determination of whether they should be raised or lowered. Additional financial information, and some philosophy, are involved as parents and taxpayers seek an answer to the question, "What should the salaries be?"

The \$304,428 request consists of \$254,849 this year and \$389,579 next year. Based on the latest announced assessed valuation of \$182,621,702, \$254,849 represents 14 cents for each dollar of assessment and a \$389,579 amounts to a 21-cent tax rate.

The \$287,650 offer by the school district includes \$104,600 for 1962-63 and \$183,050 for 1963-64. These represent additional tax rates of six and 10 cents. These amounts do not include \$100,000 a year for automatic raises.

85% Of GC Tax Dollar
The current Community Unit School District No. Nine tax rate of \$2.27 represents 58 cents of each local tax dollar paid in Granite City township.

These represent additional tax rates of six and 10 cents. These amounts do not include \$100,000 a year for automatic raises.

Interpretation of the salary raise offer and the request in terms of the tax rate does not mean that there would be an automatic increase in the rate. The district already is at a \$1.75 rate, and the 10-cent increase would bring it to \$2.75.

For one thing, there is some flexibility due to the effect of past assessment and rate changes.

Assessment, Enrollment
Such a situation is the fact that the rate maximums have been reached by the proposed assessment and rate changes.

Whether or not the \$25,000 added fee will be revised could not be learned.

Budget Cut A Setback To SWU Campus

Bond Issue, Remaining Funds Would Build Only Half Of Phase One

A construction schedule for the Southwestern Illinois University campus between the Quad Cities and Edwardsville was set back this week when the Illinois Board of Higher Education recommended less than the university's request for capital improvements.

SIU President Delyte Morris said \$25,000,000 had been sought for 1963-65 in addition to the \$25,000,000 earmarked for the new campus under the university's bond issue.

Most of the \$25,000,000 cut from the \$40,000,000 biennium budget would take care of only a half of the initial phase and provide facilities for 4500 to 5000 students.

Designed For 10,000
The first phase was designed for 10,000 students, since the anticipated enrollment by 1970 is expected to be 18,000.

The board's recommendation has yet to go to the state budget committee, then to the general assembly, which has the final say.

Among the items cut by the Higher Education board was a \$8,050,000 science and technology building for the new campus.

Dr. Morris also pointed out no target date for completion of the first phase has been set, because SIU trustees are awaiting county action on zoning.

Filing For GC Township, City Posts Ends Monday

Candidate filing for Granite City township and city offices to be filed in the April 2 election will end at 5 p.m. next Monday, according to a reminder notice issued today by City Clerk A. L. Stevens.

This week two additional city candidates filed, and petitions of nominations were picked up by the three assistant supervisors in the township.

Fillings this week were by Alex Rusick, 2713 Idaho avenue, for alderman Seventh Ward, and Kenneth S. Hartberger, 2902 Madison street, for alderman Sixth Ward. Hartberger filed a party ticket—Independent Progressive Party.

Dog Owners Warned Of GC Muzzle Law

With this week's warmer, spring-like weather, a warning was issued to dog owners that animals found roaming streets in violation of Granite City's muzzle law will be picked up.

The warning was issued by Humane Officer Scott Claytor, who said muzzled pet owners are turning their dogs loose to roam.

The city hall switchboard has been flooded with dog complaints the past three days, it was reported. Dogs must be either muzzled, leashed or penned.

Graduate Course Pay Approved For Venice Teachers

A program offering financial assistance to teachers studying for the board by Supplemental Teachers' degrees tentatively was approved by the Venice board of education at its Feb. 5 meeting Monday night.

Under the proposed program, a Venice teacher with a bachelor's degree and eight semester hours of 12 quarter hours of graduate study would be reimbursed for costs of additional courses for which he receives degree credit.

An outline of the program was presented to the board by Sgt. John O. Pier. He is to seek approval of the articles by representatives of the teachers' union before final approval is given by the board.

In other action, the board presented to the board by Sgt. John O. Pier. He is to seek approval of the articles by representatives of the teachers' union before final approval is given by the board.

Discussed With Teachers
President Lester Salem said the board has discussed the graduate course payment with members of the salary committee of Local 965 of the American Federation of Teachers. He said past action has been reached on all points.

Salem emphasized that the only part not a part of the school system's salary schedule. He said it is offered as an incentive to keep experienced teachers in the school system and at the same time allow them to continue their education.

Proposals outlined by Pier stipulate that a teacher must be employed by the board.

Retailers Plan Free Parking Lot Downtown

The first of four free parking lots for downtown Granite City shoppers—paved, fenced and lighted—is expected to be ready by early spring, it was announced Tuesday during a meeting of the executive committee of the 79-member Downtown Granite City Shopping Center association.

The initial section of the lot—less than a block from 19th street—will park 84 autos, and negotiations are under way to increase its size.

Exact location of the lot and three others to be developed over a period of four to five years will not be disclosed until property is acquired. The 84-auto section of the first lot has been reserved.

Convenient Locations
Ted Berger, chairman of the executive committee, pointed out that all lots planned will be conveniently located for shoppers.

The lots will be free, he explained. "And the plans are for a motorist to pull a ticket at the entrance gate. The ticket will be validated at a store or office where a shopper goes and the store or office will be given the ticket to the person."

Membership in the Downtown Granite City shopping center includes retail stores, restaurants, dentists, barber and beauty shops, banks and loan associations.

The 21-member committee voted unanimously to enter into the first parking program, which will start in March. The February promotions are included in the 1962-63 fiscal year.

Tickets will be issued to bus riders who may have them validated and return to the downtown stores and offices.

The committee also outlined sales promotions for the 1963-64 fiscal year, which start in March. The February promotions are included in the 1962-63 fiscal year.

Cost of the operation of the lot and the bus ride promotion are shared by the membership.

Incumbents who filed earlier on the Continued Progress Party ticket are Harry Briggs for supervisor, Charles Werner for assistant supervisor and Charles Hanks for highway commissioner.

Town Clerk John Karlebach Jr. said candidates petitions will be accepted at the town hall until close of business at 4 p.m. next Monday.

Charges Dropped In Tow Truck Arrest Case

By mutual agreement and a recommendation of the state's attorney's office, charges against four Quad-Cityans arrested Dec. 19 in a tow truck dispute were dismissed this week by Edwardsville Police Magistrate William Trabant.

The arrests occurred following an accident in which an auto overturned in a yard in the 5100 block of Maryville road. The dispute resulted in a policy ruling handed down by Sheriff Barney Fraundorf for owners of vehicles in accidents to call for tow truck firms of their choice.

The auto overturned in the yard at the Harry Deatherage home, 5120 Maryville road. A woman was believed to have been pinned in the wreckage and the Deatherages, father and son, summoned the closest wrecker at Able Paul's Mitchell Garage.

Two deputy sheriffs arrived and another tow truck was summoned. In the dispute, both Harry Deatherage and two of Paul's employees, John Allen and Edward Franko, were arrested.

Magistrate Trabant said the charges of interfering with an officer were dropped.

Boy Scout Week Begins (Continued from Page 1)

One troop will be camping overnight in front of the Granite City hall, and another will be preparing meals and actually cooking with paper hangers as utensils. The small of hunter stew, twist, cherry, rabbit chicken on a string, Dutch oven biscuits and cobblers will permeate the air.

Anniversary Tomorrow
On Friday, scouts of the Cahokia Mount Council will join nearly 5,000 other scouts and leaders in every part of the nation in dedicating themselves to the scout oath.

Tomorrow is the birthday of the scouting movement in America, and uniforms are to be worn to school that day.

On Feb. 8, 1910, a group of men met in the home of Col. Livingston in Washington, D.C., and organized the movement, which has touched the lives of millions of Americans, including presidents, cabinet members, senators, governors and astronauts.

Role in Character Building
"America needs men of unassailable character," G. H. Stenberg, president of the Cahokia Mount Council, said in a Boy Scout Week message.

"Scouting has and will continue to have a major share in building unassailable character in the men of tomorrow. Scouting believes that no child can grow into successful manhood without a firm belief in God."

The very heart of scouting lies in the opening affirmation of the scout oath: "On my honor I will do my best to do my duty to God. All else follows."

Many churches throughout Quad-City will have special services for their scout members on Sunday. Some scouts will attend religious services with their troop, while others will attend their respective churches with their parents.

Church Relationship Group
Scouts' Arthur Schreiber, Stephen Conway, Bill and Mike Alach, Stephen Willard and Larry Stawar will receive God and Country Awards at 10:20 a.m. service at St. John United Church of Christ. The religious award program is designed to help boys spiritually to practice duty to God and to be reverent and faithful in their religious duties.

The council executive board has created a Church Relationship Committee to promote and strengthen the close working relationship between the council and churches of the area.

President Stenberg has appointed Arthur Weitzel chairman of this committee.

Weitzel is an active lay leader in the Evangelical and Reformed Church and is a member of the council executive board. For the past six years, he has been chairman of the council camping committee.

Varied Displays
The judging of displays will be under the leadership of President Bob Mosley. First, second and third prizes will be given to units in the window display competition, and one prize will be given in the outdoor demonstration group.

Cub packs which have announced their displays are: Pack Three, at P. N. Hirsch store, Pack Seven, at P. N. Hirsch store, Pack 12 at Car's, Pack 13 at Ben Franklin store, Pack 18 at C. H. Bell store, Pack 19 at Car's, Pack 20 at Christian Book Store, Pack 22 at Bellmore Sporting Goods store, and Pack 96 at Schemmer hardware on Ponton road.

The following troops will set up window displays at outdoor demonstration: Troop Six, outdoor demonstration at Hope Lutheran Church; Troop Seven, window display at Car's; Troop 18, overnight campout and demonstration on city hall lawn; Troop 20, outdoor display, 2400 block of Madison avenue; Troop 47, outdoor display at Luby funeral home, Madison; Troop 23, campout near Stalling; and Troop Six, Indian lore at the Illinois Power Co.

Committee Procedures Discussed By Ministers

The Quad-Cities Ministerial Association met Tuesday morning at St. John United Church of Christ with the new president, Rev. Verne Barnett, presiding. Rev. Barnett opened the meeting with a discussion of the method of procedure of the organization.

A question was raised as to how extensively specific matters, such as social problems that challenge the church, should be discussed in the regular meetings of the group.

It was concluded that where ever possible, reports on specific matters of any nature should be heard from persons or committees which had made a thorough study of the issues involved. Having heard such reports, the total group can then act with intelligence without taking unnecessary time in meetings, it was decided.

Rev. James Caddick reported for a special committee which was working on a booklet for publication of a printing booklet for churches that are represented.

through the ministers in the association. The booklet will be approximately 20 pages in length and will contain information as to the location of each church, the pastor's name and address, and possibly the hours of the major services. It will be distributed through the Welcome Wagon program.

Rev. Oscar Ellinger of the Christian Methodist Church in Madison interpreted in some degree the "block unit" program, which is being promoted in his community. The program works for the upgrading of the community through property improvement, through encouragement of higher courtesy standards in community life, and through the general improvement of behavior within an area.

The association voted to give a unanimous support to the action being taken by Rev. Ellinger and his associates. Action was taken to send letters of appreciation to Mrs. Howard Lucas for the many years of service given by her late husband to the association.

State To Provide Magistrate Pay After This Year

The salary of a police magistrate who becomes a magistrate of the circuit court on Jan. 1, 1964, will be paid by the state of Illinois, and unless otherwise provided by law shall continue to perform their nonjudicial functions for the remainder of their respective terms."

The new judicial amendment abolishes police magistrates' courts as of next Jan. 1.

It further provides, Clark said, that such "police magistrates and justices of the peace shall be magistrates of the several circuit courts, and unless otherwise provided by law shall continue to perform their nonjudicial functions for the remainder of their respective terms."

A vacancy in the office of justice of the peace, created by the unexpired term exceeds one year, should be filled by special election. Clark has held.

Other new rulings are that: New Fog Lights "Fog" lamps, a device containing three amber fog lights—two of which, and no more, would be in operation at one time in connection with use of the two lighted lamps normally shown on a motor vehicle.

Harris also was appointed by President Chester L. Baker to replace Maule as chairman of the public relations committee. Maule said he was appointed to head the newly-formed by-laws revision committee.

Harris Co-Sponsors Minimum Pay Charge (Special from Springfield)

Rep. Lloyd "Curly" Harris of Granite City is among the sponsors of a bill introduced in the House this week to amend the municipal code to increase minimum wages for police and firemen.

The proposed minimum scales are \$450 a month in cities between 500 and 25,000 population, \$475 in the 25-75,000 population, and \$500 between 75,000 and 100,000.

The local monthly minimum wages for patrolmen are — \$360 in Granite City, \$510 in Madison and \$510 in Venice. Granite City firemen's minimum pay also is \$505 a month.

The term of any circuit judge elected at a judicial election in June 1963 will expire on the first Monday in December 1970.

A county judge may not assist taxpayers in the preparation of federal income tax returns.

And a person incarcerated in the penitentiary who faces another charge should be tried on the second charge within four months after his incarceration on the first charge. Regardless of the fact that a prisoner is serving a sentence imposed in another county, Clark advised, it is better practice to try the prisoner on a second charge within a four-month period.

GCHS To Compete In District Speech Tourney

Students from the Granite City high school will participate in the Illinois district tournament sponsored by the National Forensics League Saturday and Sunday on the campus of Illinois State Normal University in Normal. The university high school will serve as host.

Events will include cross examination, original oration, serious interpretation and girls' and boys' extemporaneous speaking.

MORE ABOUT

Pay Asked This Year

(Continued from Page 1.)

year after year, it is factual to say that the precise financial status and federal financial assistance is more level certain in past instances, both have been cut to specific percentages, less than 100%, when funds for the year ran out, and the existing level and method of paying such funds are subject to legislative action every year or two years.

U. S. "impact" aid-for districts teaching students whose parents work at non-paying federal installations - brings Granite City schools more than \$100,000 a year and is subject to a Congressional vote again in 1963.

Last year, backers of broader federal school aid temporarily "impact" aid to the success of the full proposal, Supp. Harold M. Kaiser journeyed to Chicago and Washington to seek a continuation and has scheduled similar trips this year.

The structure of state aid is revamped periodically by legislators, who set the per-pupil level every two years. They will vote on school aid again this spring, and a boost in overall spending will be necessary to maintain previous rates.

In a school system such as Granite City, which depends on state funds to the tune of over \$1,000,000 a year, such uncertainty looms large.

On the other hand, the state's role in supplementing local-level school taxes has become firmly established. It would seem that no major alteration in the tradition could be made at Springfield without loud outcries along the entire length and breadth of Illinois.

The reason for the offer and request remaining \$352,798 apart for the two-year period, and the reason for there being no agreement seven months after the start of the fiscal year is generally considered to be a difference of viewpoints on how much state funds to the tune of overall school taxes.

Teachers compare their with that of various professions and correctly say that Granite City has within its power to make more money.

No Bid For Rate Election
Neither side, however, is seeking an immediate tax rate election; when it is held, it is expected to be presented jointly with a construction bond issue.

The teachers also note the desire of parents to have high-quality instruction for their youngsters, and cite a correlation between the salary level and the caliber of people attracted to an occupation.

Factors considered by the board in setting its salary were: availability of funds; present pay of teachers in this area; the effect on school income of assessment reduction; federal aid prospects; living costs; availability of qualified applicants; the need for salaries competitive in attracting new teachers and in maintaining the staff; and the relation of salary expenditures to the simultaneous needs to provide adequate instructional materials equipment and buildings.

Who Is To Be The Judge?
Teachers have criticized technical aspects of school financial policies, have urged that they sit on budget preparation, have told parents their children "are not getting the best possible education" due to board decisions, and have made themselves available to address local organizations on school matters.

School officials say some of the criticisms voiced are invalid and have made themselves available to address local organizations on school matters.

Five of the seven present board members were endorsed in their election campaigns by the teachers' union, which now condemns the board for not granting all that it is seeking. Again, the question of viewpoint - the vantage point from which the salary issue is surveyed - appears to be a major factor in the disagreement.

Southwestern Picture Could Clear This Weekend; Edwardsville Is Key

This is "last chance" weekend in the Southwestern basketball conference for Edwardsville's Tigers.

Coach Ron Harris' club will get final regular-season potshots at both Belleville (8-2) and Collinsville (8-1) on consecutive evenings.

Conceivably, the Tigers (6-3) could catch both clubs, but it will take some doing, especially since the Bengals play Saturday in Collinsville, where the Kahoks are unbeaten for the better part of three seasons, following Friday's home court encounter with Belleville.

Belleville will travel to Alton (4-5) Saturday, while the Kahoks have a Friday night engagement at the same school in the busiest SWC weekend remaining before regional tournament time.

Granite City's Warriors, out of the running (5-5) after challenging the leaders through the first half of the schedule and dealing Collinsville its only league setback, will test the health of a couple of injured players in a Friday night non-league game at Duplo.

Tests For Profitit, Warren
Coach Andy Sullivan will have guard Jim Profitit (twisted knee) suited up and ready for spot appearances against the Tigers, and hopes Profitit will be able to go the distance in a SWC game Saturday evening at Wood River.

Profitit's absence in the last three games has been a factor in losses to Alton and Edwardsville. "Jim's been getting treatments every day," Sullivan said Tuesday night, "but I don't want to risk him out on the court shooting this week, but not against any real defense." Profitit had hit at a 14-point clip in seven previous conference games.

Forward Jim Warren, who

turned in a 19-point output against East St. Louis last Friday and then sprained an ankle at a crucial stage of the Edwardsville game the next night, should be ready tomorrow, Sullivan added.

He emphasized that both players will be lifted quickly this weekend if the injuries are still apparent. "We want them ready for the regional," Sullivan said. Game No. 8 in the conference will pair East St. Louis (1-9) and Wood River (1-8) Friday night at East St. Louis.

Highland vs. Cahokia
Cahokia, well on its way to a third-deckoning Madison as champion in the Midwestern conference, must be wary of upstart-minded Highland (3-2), winner of seven straight, and the Comanches' hosts Saturday night. Highland tackles Bethalto (3-5) the previous evening.

Madison (6-1), still waiting in the wings for someone to knock off Cahokia, should handle Roxana (1-4) in the Tri-city activity of the weekend. Friday night on the MHS floor.

Dupo, defeated 57-40 Tuesday night by Cahokia, has completed the conference portion of its schedule with a 3-7 record and will host Granite City Friday.

Third place (6-4) Worden, the only team able to beat Westlin in Madison-Clinton-Macoupin conference play this season, could pick up some ground on the leaders with a win Friday against last place (0-9) Aviston.

Westlin (9-1) plays a non-conference contest at St. Paul of Highland, Bunker Hill (7-2) could solidify its runner-up status by downing Breese (4-6) the same evening.

And Vandalia (4-5) needs a victory Friday night at Livingston (3-6) to insure its hold on the fourth spot.

Coolidge, Prather In JHS Conference

Tourney Semifinals
Coolidge and Prather junior high schools tackle semifinal opponents tonight at the Prather gym in the first annual Madison county junior high school conference basketball tournament.

Coolidge, a 67-62 winner Tuesday night in a first-round game against Roxana, will meet Webster of Collinsville at 8 p.m., following a 6-30 contest between conference champion North of Collinsville and Prather's Chiefs, who drew a first-round bye.

North knocked off Edwardsville 47-43 in the tournament's first game Tuesday, with the local putting on a closing finish which saw them come from 18 points back in the third quarter to within four late in the game.

Coolidge also had its hands full against Roxana, but stayed ahead all the way. The Braves led by as many as 11 in the fourth quarter, but Roxana climbed to within two points with three minutes to go before Coolidge spurted to its final margin.

The Braves had excellent scoring balance. Larry Ripke was third with 19 points, Mike Pritchard had 15, Elmer Wortham 11 and Bill O'Neill 10.

Tonight's winners play the first-place trophy Friday at 8 p.m. following a 6-30 game in the third place between the semifinal losers.

Rams Find Vashon Improved; Bow To Public League Leaders, 65-46

Back on last Dec. 3, Lincoln of Venice and Vashon of St. Louis got together for a season-opening contest in Venice which wasn't decided in favor of the visitors until forward Joe White rimmed a pair of free throws for his 24th and 25th points in the last five seconds.

White scored just four points on his home court Tuesday night, but Vashon showed Lincoln and Coach Stan Lynch just how far it had come in 28 months with a resounding 65-46 victory.

Currently leading the tough St. Louis Public league with a 12 and 1 record, Vashon steamed to a 24-14 halftime lead over the Rams, who again got away to a slow start.

"We made three mistakes (two traveling violations and a bad pass) in the first quarter," said Rams' mentor Lynch, "and they scored a bucket on each of them."

Vashon Shoots Well
Lincoln launched 11 more shots than did its hosts, but hit just 16 of 57 for a cool 28%.

Rams, working for an opening more carefully and showing a big rebounding edge, rimmed 25 of 46 field goal attempts for a fine 54%.

"We never have shot well over in the (Hedley Tech gym) in the six years we've playing them," Lynch said.

Only Calvin Dixon (15 points)

Madison-Venice Teachers Down GC In March Of Dimes Benefit, 63-42

A crowd of approximately 700 watched the Madison-Venice teachers down a squad of Granite City Teachers 63-42 at the Granite City high school gym last night in a basketball contest staged to benefit the March of Dimes campaign.

The winners broke an 18-1 tie late in the second period and ran up a 28-18 halftime lead which they widened in the last half.

A little "unofficial" help at the score's table boosted the scoreboard tally to 61-61 in the third period.

New VHS Student Librarians Named; Council Plans Set

By Michael Lopez

New student librarians have been appointed by Mrs. Barbara Williams, who assumed her duties as librarian at Venice high school this semester.

Mrs. Williams, who opened the library "officially" this week for the first time this school year, said new books will be on the library shelves in about two weeks.

In addition to assisting in cataloging and placing the new books, student librarians' first task will be to help find missing books. Mrs. Williams said about 60 apparently have been lost since the library closed last June.

Student librarians appointed are Mary Jane Caruso, Marjorie Fritter, Ruby Scott, Mary Lane, Peter Fields, Judy Reidelberger, Mary Lou Shambro, Wanda Allison, Shirley A. Johnson and Gloria Ponce.

JAMES KUTZ, student council president, said the council is making plans for Student Council Week to be held Feb. 18-22. Highlight will be student government day on Wednesday when student "officials" assume positions in city offices for a day.

Kutz said two student body elections will be held prior to Student Council Week, the first to elect council officers for 1963-64 and the second to name students to fill the city offices on student government day.

"SCHOOL SPIRIT" will be the topic of a panel discussion before the VHS student body Monday morning during home room period. Panel members will include cheerleaders Gloria Ponce, Marilyn Gonterman, Barbara Manier and Roseann Cooper. Student Council President James Kutz and Secretary Virginia Koelker, "Hi-Times" Editor Jeanette Gonterman, "Venetian" Co-editor Mike Lopez and basketball team members Jerry Cio, Pete Fields, Bill Getz and Jim Hornman.

Sweetheart Banquet Scheduled Feb. 16
Annual "Sweetheart Banquet" of the Roca young men's club will be held at 7 p.m. Saturday, Feb. 16, at Fisher's restaurant in Belleville.

The banquet was originated in 1955.

Junior Achievement Companies Provide Unique Opportunity For Quad-City Youth

Every evening, Monday through Thursday, the Quad-City youth gather at 2009 Madison avenue. The success or failure of 17 business firms depends on their decisions.

The youth—about 500 of them in all—are members of Junior Achievement, an organization in which young men and women under the direction of adult advisors organize and operate their own companies.

On assigned nights, members of the youth-operated companies meet at the Junior Achievement Business Center on Madison avenue. One company, the Granite City JA Bank, operates each night.

Junior Achievement companies are not mere "paper" organizations. They design products and produce them, operate at a profit if sales are good and lose money if they are not. Companies elect officers and sell stock.

National Organization
The Granite City JA center is under the direction of Junior Achievement—Mississippi Valley, Inc., Florissant, Mo. Junior Achievement is a national organization governed by a board of directors in New York City.

But the Mississippi Valley members are operating this year under a different plan than those firms here range from wrought driveway markers, hurricane lamps, special Easter products and trivets.

The 17 companies are sponsored by eight Quad-Cities business and industrial firms. About business and have a lot of fun at the same time.

Don Mueller, associate director of the Mississippi Valley JA, said the plan here is proving very successful. Inquiries have been received from New York, 40 adult advisors from the sponsor at the same time.

Deadline for application is March 15. Inquiries concerning all scholarships may be made at the SIU office of student affairs.

In all, Swanson said, the scholarships are worth \$35,000.

JAMES SPUDICH

Receives Fellowship For Graduate Study

James Spudich, son of Mr. and Mrs. Anthony Spudich of 3133 31st avenue, has been awarded a fellowship for the 1953-54 academic year by the University of California, Berkeley, for graduate work in biochemistry.

A 1950 graduate of Granite City high school, he will be graduated in June from the University of Illinois with a degree in chemistry. He plans to leave for California in September.

Action On Street Trucks Deferred By GC Council

The Granite City council's investigation of two newly-delivered street department trucks not meeting the city's specifications was deferred Monday night due to the absence of Street Committee Chairman Estlin Von Schmitt.

The council last week had voted not to pay for the trucks when Alderman Samuel Whitmer pointed out the cylinder cubic inch displacement was not in accordance with the specifications as prepared by Comptroller John Doobler.

The city received two six-cylinder trucks from Mathews Chevrolet Co., while other dealers submitted bids on eight-cylinder trucks to comply with the 200 cubic inch requirement. Whitmer said.

A salesman for Mathews Chevrolet Co. was in the audience and told council members his office had not yet been contacted by Schmitt.

The requests for deferment were made by Aldermen Ford Johnson and Samuel Shackelford in order that Schmitt might be present.

Insurance Study

In other committee action, Alderman Frank Vesel, chairman of the Police committee, was given permission to study the need for insurance for police patrol cars. Vesel pointed out a police vehicle had been involved in an accident over the weekend and that there was a possibility the city could save money through insurance.

Alderman Casmer Skubish asked the Fire and Water committee and Fire Chief Elijah King to confer with the East St. Louis & Interurban Water Co. to determine if proper pressure is being maintained in water lines. He said there have been a number of water lines frozen

in recent weeks, and that pressure tests had not been conducted since last fall.

"This would be a good time to do it, just to make certain we are getting the proper pressure," Skubish remarked.

Referred to the City Hall committee, headed by Skubish, were bids received for filing cabinets for the police magistrate and engine companies. Skubish said the committee is to determine if the bids are for the proper cabinets.

Street Contracts OK

City Atty. John Githoff told council members he could find no conflict of interest laws which would prevent the award of two motor fuel tax street improvement projects to G. H. Sternberg & Co. The firm, headed by G. H. Sternberg, who is a Seventh Ward aldermanic candidate in the April 2 city election, was low bidder.

Contracts were awarded to the firm last week, subject to an opinion from the attorney. His fee was \$360 for work on Alexander street, and \$25,321 for improvement of Ralph street.

Fluoride Discussion At Dental Meeting

Children's Dental Health Week next week was a major topic of discussion at a meeting of the Tri-Cities Dental Society Tuesday night at the home of Dr. Leo Coleman, incoming president.

Discussion centered on response received by dentists to fluorides on sodium fluoride at PFA meetings in the community. Speakers outlined comments and questions they have received from various audiences.

Dr. Coleman said a survey is taken at each meeting addressed by a number of the society, with slips handed out to those present asking them to mark their approval, disapproval or indifference to water fluoridation. He said results of the surveys are being tabulated, and will be made public after the study is completed.

Among the 10 members of the society present at the meeting were newly-elected vice-president Dr. Daniel E. Jamet and secretary Dr. Wallace M. Brylak.

Public Meeting Sunday On Eagle Acres Water

A public meeting on the proposed extension of water service to Eagle Park Acres will be held at 3 p.m. Sunday at the Eagle Park Acres, Methodist Church, Allen and Watson streets.

Cleveland Johnson, who is funding the drive, said all interested persons are invited to attend and discuss the matter. Rev. E. E. Moore, church pastor, will be host.

Johnson said Mr. and Mrs. William Gathright of 202 Watson street and John Williams of 110 Hare street this week made the initial installation fee deposits in the First National Bank in Madison.

Arrangements have been made with the bank to accept such deposits until all residents have signed for the service and paid the installation fee of \$105. The money then will be paid to the East St. Louis & Interurban Water Co.

A number of merchants and business firms have agreed to provide free gifts to those making early deposits, Johnson said.

Flareups Continue In GC Council — Argue Over Committees

Receiving the right answer to a leading question, Alderman Ford Johnson fired a verbal barrage at Alderman Walter Nomm, charging him with usurping the authority of the Fire and Water committee's chairmanship Monday night.

His resignation was not accepted by the council.

Johnson accused Nomm of taking over all the council committees and pushing through action before committee members are informed of developments.

Not Urgent Business

"This wasn't an urgent thing. The committee was studying the request by the Tri-City Shrine Club to buy the old fire department pumper," Johnson pointed out.

"Then I notice the council takes action on the matter last week," he continued. "I wasn't at the council meeting because I was attending my daughter's graduation at the high school."

Nomm said he was following a recommendation of the fire chief in recommending the pumper be retained to pump water out of flooded basements.

Johnson repeated the committee was studying the matter and would have received the information from the chief. "We would have submitted a report to the council."

Accusation Continued

The alderman, through a question directed at Alderman Rufus LeMaster, who was presiding in the absence of Mayor Davis, was confirmed in his assertion that a single alderman should not assume the duties of a committee.

He asked, "When action has been referred to a committee, is it to stay in committee until the committee reports, or can it be brought up by another alderman?"

LeMaster answered, "It's not supposed to be."

Johnson then fired two more questions.

"Is the action taken last week without the committee's recommendation legal or illegal?"

LeMaster replied, "I can't answer that."

"Where's the city attorney?" Johnson then asked.

"I can't answer that," LeMaster said.

City Atty. John Gitchoff appeared later but was not called upon for an opinion on the matter.

Johnson pointed out the Shrine fire pumper for \$1 to use it in parades and at conventions to advertise Granite City.

Urges Committee Functions

"I think committees should be permitted to function, and I don't think their duties should be taken over by another alderman."

"If this is to be the procedure, I'd like to hand in my resignation as chairman of the Fire and Water committee and as a member."

LeMaster asked Johnson to wait until Mayor Davis was present.

"If he made a motion to resign, I'll second the motion," Alderman Steve Basarich said.

However, several other aldermen suggested Johnson wait to present his resignation to the mayor.

Alderman Mrs. Gabrielle Bettine joined the argument.

Council "Off The Road"

Supporting Johnson, she commented, "We're getting off the road on permitting committees to function."

Johnson, a former city fireman, said he had driven the 35-year-old pumper. "Who's going to drive it for the city now? What if it breaks down? Are you going to sell it for scrap?"

Mrs. Bettine also spoke back at Nomm, telling him it was the first time she had ever been told she had not done her job. "I do what I'm assigned and much more, and I take exception to that remark."

The council, momentarily, was directed back to routine business by LeMaster.

Then Gitchoff appeared and handed a paper to Nomm.

Nomm announced he had a resolution for installation of a fire hydrant at 2201 Charles street.

"Do you want to read it?" he asked Johnson.

Johnson replied, "You're running the city; you read it."

The resolution was read by Nomm and was approved.

Seasonal Layoffs Boost GC Relief Cases In January

Seasonal layoffs were blamed for a sizeable increase in relief cases in Granite City township during January, it was reported this week at the office of Supervisor Nelson Hagmann.

Relief cases increased to 183 from 145 in January. Assistance was given to 566 persons last month at a cost of \$13,734, compared to 445 persons and costs of \$6928 in December.

In January 1952, the township recorded 167 cases with 533 persons and costs of \$11,181, also showing an increase over the preceding December.

Total relief costs for the fiscal year, which ends Feb. 28, amount to \$106,321, compared to \$93,841 during the same 11-month period in the 1951-52 fiscal year.

Education Group Hears State Meeting Reports

Reports on a recent Illinois Education Association meeting were heard at a meeting of the Granite City Education Association at Niedringhaus school Monday.

The reports were given by Dale Rea and Miss Hazel Towney. Granite City delegates to the meeting. They were among 748 delegates representing about 64,000 IFEA members.

Reports covered legislation recommended by the delegates and a resolution calling for a study of the U. S. Supreme Court's ruling that prayer in public schools cannot be mandated by law.

The delegates recommended legislation to insure safety for students and provide for purchase of insurance against financial loss due to school-connected accidents, improve teacher retirement and tenure laws, clarify and improve the law relative to the school day and term, and to require an annual appropriation by the state of the teachers' retirement fund, an amount equal to 1.2 percent of the teacher's aggregate contribution.

Miss Lucy Parrish, vice-president of the Granite City association, presided at Monday's meeting in the absence of President James Swanick.

Nameoki Board To File Suit In St. Clair County

A change in plans for filing a suit to test the constitutionality

of a state law requiring elections for levee district bond issues was announced last night at the Nameoki town board meeting.

Supervisor Harry Briggs said the test suit will be filed in the St. Clair county circuit court instead of in Madison county. "We plan to file it early next week," he told board members.

Town Atty. Nick Vasiloff will be aided in the presentation of the case by Robert Dolph, an Aurora attorney, who handled a similar suit with success at Aurora.

In other business, Vasiloff recommended the board delay until its Feb. 20 meeting the approval of an engineering contract with H. W. Lochner Co., Chicago, to give time for board members to study revisions. The firm is to design a sanitary sewer system for the township, and it is hoped the levee district will build the trunk line.

Station Picketed In Wage Dispute

Local 971 of the Automotive Petroleum and Allied Trades Union began picketing the Belle-More Cities Service station at 3200 Nameoki road yesterday morning in a dispute over back wages for a former employee.

Louis Rousseau, operator of the station, said the man was discharged after working at the station about two months. He said the man came to the station seeking work and agreed to work for less than the union scale.

The union contends the employee should have been paid union scale during the time he worked. Rousseau said, and that he now should receive back pay to make up the difference.

At the close of the meeting, the members viewed a demonstration of an air purifier for the town offices.

The FORUM

ASKS NOMINATE TO EXPLAIN WHY TAXES LEAVING CITY

To the Editor:

It seems to me that the alderman of the 5th Ward, Walter Nomm, has more nerve than he should have in leaving the old government rule. He has and still is violating his oath of office.

At first, he and his colleague of the 3rd Ward, Rufus LeMaster, instigated and with the approval of a few of their "yes-men" and misled colleagues, gave the sanitation collection work \$147,500 from an out-of-state firm. The same way the engineering contract, \$69,000, and \$25,000 more down the drain.

Nearly \$200,000 of the taxpayers' money goes away out of our city. How in the world can a community progress and prosper under these circumstances?

The city pays out \$12,297 monthly for four men's work, work which is not done. While he drove the local taxpayers the backbone of our city who foot the bill, he drove the sanitation workers to relief.

Walter Nomm has been asked many times through the Forum to explain to the taxpayers the reason why so much money has gone out, but so far he has not answered. We, the taxpayers, are still demanding to know the reason. It is our tax money and we should know.

It is about time our Chamber of Commerce and the Merchants Association take up Mr. Nomm's fine suggestions and take a hand in the city's affairs before it is too late for the city. It is going, our city will be bankrupted.

Meanwhile, elections are coming very soon, and I hope that the Granite City voters will keep these kind of aldermen out of office.

OTHER WAYS TO PUNISH THAN KEEPING PUPIL LATE

To the Editor:

The Granite City Woman who answered my letter has not heard of having a child write 40 or 50 times that he will not be late in class, judging from her reply. When I was in school we were made to stand in the corner if we disobeyed, and if our eyes were harmed in any way, we soon learned to be still. I also know children are still punished, and that no teacher is accused of being a sadist unless the child is whipped to make the child do as he is told.

As far as a child being quiet because he is afraid, I am sure if they get too quiet, you start to wonder if they are okay. I realize a child should be taught to be quiet in class, but even in a while a child does forget. You talk to a child and you teach him to respect his elders, his teachers and to obey all rules, but sometimes he just forgets.

As for blaming the parents, we are parents to be sure, but each time our children do something wrong in class? Don't forget, we try to teach our children to respect for their fellow man, his country and his God. I am a mother. I am sure I want to teach him safety education so that when he is very free from us and on his own, he will be able to depend too much on what we have taught him.

I am truly sorry if in any way I have offended anyone, but was taught here in our schools that as an American I have two precious freedoms: freedom of speech and press. I spoke as a mother and I am sure I am not the only mother who feels this way.

TIME FOR A CHANGE IN COUNCIL MEMBERSHIP

To the Editor:

Are the people of Granite City going to elect the same people to the council who have been voting so heavily for them? Why not throw some of them off who have been in office for over 10 or 12 years?

Don't elect anyone for life. If you do, might as well buy them silk hats, like the Tories wear in England.

There is another election in April in Granite City, but we have little is said about it. Because there is no pay. The positions of park commissioners are important, too. They spend a lot of the tax money.

Let's see how you good men get into the spring elections. There is still time.

JAIL TERMS CAN TURN YOUTHS INTO CRIMINALS

To the Editor:

I would like to express my appreciation at the stand Barney Fraundorf has taken against youths having to go to jail. He is a dangerous, hardened criminal in the civil war-era county jail. Some of these youths are guilty that they have insufficient funds to afford a competent lawyer. This leaves the impression on impressionable youth. A person whose only guilt is hithertoing or vagrancy has no business in jail.

Youths of the 14-18 age group often have never been grounded in the fundamentals of right and wrong. They are full of rebellion and integrity which would be a bulwark for their faith and hope, so they would not have their worship of criminals and would see these men as they

really are—rehabilitant and anti-social renegades.

Youths whose offenses are slight must at all costs be kept away from associating with hardened criminals. A separate place should be set aside for them and they must constantly be kept out of the chronic criminal group. Society owes minor offenders the same respect.

Even from an economic viewpoint, there are gains to society in restoring youthful to their homes intact. Fraundorf has some excellent ideas on how to treat them so that the time that can be spent better than just staring at ceilings and bars.

Organizations in Granite City need a lot of help. The most needy of all charitable works—unfortunate youths—must be taken on as a career. Save them now; tomorrow will be too late.

RECALLS PAST INSTANCES OF GOOD CITIZENSHIP

To the Editor:

Welcome back, Orville. Since you were resentful of not being able to help you out the night of that spot of government of our state, I have never did or will give up belief that you are still a good citizen and brilliant leader. In the past you have proven this in many ways, helping those who could not help themselves.

Regardless of your past mistake that you no doubt were led into to pave the way for one who was resentful of your generosity and ability, I and my wife still have faith in you. We have personally known you and your family for years—since 1904.

You have learned the hard way, but took it like a man and made the best of it. In so doing, you rendered a great service to the inmates of your place of penal servitude. You should be respected and given credit for the service to establish yourself in useful society in our community.

Don't be ashamed to be a public, as you did no more than a lot of big-time Democrats did the past many years. You were caught. Those that did served much less time and took much more, so no one else would be a public slave thieves of the taxpayers' money. They had better keep their own noses clean.

You will learn that the ones you have done the most for will be the least for you. It happened to me. It happens to all of us. I am still your friend, but I am not a crime unforgivable. I could not be of help to a Christian. God will reward me for my faith.

Let us meet him with a smile, a sap on the back and a handshake.

NOT FITTING FOR MAJOR TO JOIN IN WELCOME

To the Editor:

This is one letter I never dreamed of writing. I want to write about my beloved Granite City. It gave me a sick feeling in the pit of my stomach when I saw tonight on the news that the mayor of Granite City at the gate of the Memorial Hospital, receiving one of the greatest, if not the greatest of political honors, was a man who was well as a distinguished citizen leader of the city of Granite City, the All-American City.

Who is this man he received so proudly? Is he a heroic veteran, returning from a war? Did he conquer space or face the moon? Oh, no, he is a man who violated a public trust; a man who has been in the highest political office in the state due to the confidence his fellow citizens had in his honesty and integrity.

He violated this confidence the people had in him by trying to and could his own people. He has not succeeded, if it had not been for an alert newspaper-reporter who, although accused of political smear, kept after him until he finally had him before his peers.

According to reports, this distinguished Granite City civic leader had taken from the till of the taxpayers of Illinois over \$500,000 to \$1 1/2 million. For this he had to serve about 6 1/2 years in the penitentiary. So far, so good.

The man committed a crime, he paid the penalty for it. But to make such a fuss about his release is to me incomprehensible.

Granite should have flown the flag at half-mast at the City Hall. There should have been more than sending its mayor to Menard. The man who gave Granite City a bad black eye, receive him like a conqueror and let him go.

But I will close now and let those who leave Mr. Hodges go. The man who has been in the bribe again. The more one is in a pile of manure, the more offensive odor will emanate from it.

Belleville Floridation Move

Encouraging To Local Residents

Efforts by Belleville citizens and dentists for floridation approval in that city are greatly encouraging to Granite Citizens currently seeking floridation authorization from officials of the local city. Council action is lacking only in Granite City, Belleville and Swansea; once that municipalities give the "green light," the entire East St. Louis and Interurban Water Co. system can be floridated.

Petitions seeking a floridation referendum, April 2 have been signed by 900 Belleville residents. If an election is called and the proposal carries, Belleville aldermen will be asked to enact a resolution requesting floridation by the water firm. The company already has indicated it will comply to the requests as soon as all the affected cities have taken action.

As pointed out by the Belleville Dental Society, "Floridation of the public water supply is the best known and most effective way to prevent half the rate of his most prevalent disease—tooth decay."

Quad-Cityans—Madison and Venice aldermen have adopted floridation ordinances—echo the views being expressed in Belleville and look forward with renewed hope to the day when floridation will be a reality.

At the risk of being repetitious, it should be kept in mind that Granite City citizens already have done their part by approving floridation in the April 1961 election. The reason Granite City has not been added to the list of those granting the necessary authorization is that the people's will was reversed by the very aldermen who had called the election. The decision can be reversed again, with the official "No" changed to "Yes," by another vote of the city council.

Zoning—To Have A County In Which All Residents Can Take Deep Pride

"I like to see a man proud of the place in which he lives. I like to see him love his place with the pride of his home."—Lincoln

All Madison county residents will be able to stand a little taller, to take extra pride in the county which is the heart of the state of Illinois, the County Board of Supervisors. The people—probably the most important ever to confront the county government—is to be made soon.

As it appears in its final form, the zoning ordinance meets the support of every citizen and every County Board member. In protecting property values, the only people that "harm" are those who might hope to carry out a third land use that would be unfair to neighboring property. Existing structures and uses are not affected.

The zoning issue is especially important at this time because of the growing trend toward viewing zoning as a minimum requirement for new plant locations. If sufficient jobs and economic activity are to be created and maintained, if future employment is to be assured for children of Madison county families, zoning of the unincorporated areas is essential. The alternative is a downhill road to the "depressed area" designation the Council of Mayors currently is seeking from the federal government.

It is true that there is less chance of immediate industrial development along the eastern part of the county, where most of the zoning opposition has arisen. But it is equally true that the eastern part of the county is a downhill road to the "depressed area" designation the Council of Mayors currently is seeking from the federal government.

County residents need zoning. They must have it to have much chance of maintaining a reasonable degree of prosperity for themselves and their children.

There will be justification for taking deep pride in their county if zoning is approved, for it is a forward step that can lead to a better future—a better life—for all.

That statement "Even those who know themselves have no respect for human life usually have regard for their own lives."

Intellectual Honesty Vital In Discussion Of School Finances

Shame on those Granite City school teachers who denied the teachers' union advertisement that appeared in Monday's issue of the Press-Record.

Intellectual dishonesty it becomes those to whom parents—yes, the entire public—look to mold the minds and character of our children. Fortunately, it is unlikely that most of Granite City's teachers subscribe to such half-truths.

The advertisement compared incomes of non-degree teachers (of whom there are less than 2% of the faculty) as if they were incomes of degree-holding teachers. A fair and equitable comparison would have shown substantially higher earnings than appeared in the ad, in some cases as much as \$162 more a month.

Teacher earnings also were spread over 12 months under the heading "26 pays." Everyone knows, of course, that teachers work nine months and are paid for nine months; part is held back for summer months. Some find supplementary employment during the summer to add to their incomes; some spend part of the summer at college to improve themselves and their earnings; some clear the one to pleasure trips or, in the case of housewives, to their families.

The Press-Record is as concerned about the short work-year as the teachers; for nearly a decade now this newspaper has advocated staggered, year-round school, students continuing to attend nine consecutive months a year. This would give teachers full-time employment, utilize the millions of dollars in school facilities that now are idle 25% of the year, and enable these same facilities to serve a 33% enrollment growth without opening up debt for more new buildings.

Competent, qualified teachers should have an opportunity to teach throughout the year and to earn adequate compensation. Certainly the Granite City school system does have that kind of teachers, based on the excellent showing by local students in competition with those of other districts.

But it is disappointing to see an objective article on the salary issue labeled by a teachers' union officer as an attempt to "away public opinion against our teachers." Factual analyses will not inform the public, but there is real danger of the public getting an inaccurate picture from such garbled presentations as that in Monday's advertisement.

Let the discussion continue, but let there be more intellectual honesty.

"The human race is divided into two classes: those who go ahead and do something, and those who wait and ask, 'Why wasn't it done the other way?'"—Mark Twain.

Conditions Cited By Labor

Columnist No Longer Exist

Victor Riesel, columnist and expert on labor affairs, had an unfortunate omission in his nationally-syndicated article dealing with the sale of labor peace for a percentage of the amount of construction contracts in Southern Illinois.

He failed to say that the conditions he described occurred here or more years ago, and longer exist. The widely-praised ten-point code of ethics in effect here was ignored.

The Illinois Metropolitan Area has been working—and with a considerable staff—both in fact and in reputation.

In view of current efforts here and across the nation to accept new jobs and expand the economy, Mr. Riesel should have added a paragraph bringing his review up-to-date. The fact that he did not could hamper such efforts.

While we are on the subject, it seems a shame that nearly a half-century before the labor leader charged with such shakedown was brought to trial and convicted. If the investigation unavoidably took this long, the action is "better late than never," but related indictments have been rendered impossible by the passage of time.

Water Lines Needed To Solve Eagle Park Acres Fire Problem

Renewed plans by Eagle Park Acres residents to find a better service for their community offer the best chance for permanent solution of a serious fire safety problem.

Despite commendable cooperation by Venice volunteer firemen in serving the unincorporated area, their efforts will be badly handicapped until water is available from fire hydrants as well as from the limited capacity of the fire engine tank.

It is not known whether all of the families will decide to pay the necessary water installation fee, but it would seem logical that they would. Installation of water lines to Eagle Park Acres would result in much more convenience for them as well as reducing the fire threat to their lives and property.

The solution to most problems will be overheard if you listen to the next three men that you observe in conversation.

In order for Hagnauer to cash the checks he will have to pay a service charge of 10 cents on each of them, thereby losing 18 cents on the transaction, or make a trip to the St. Louis bank on which they are drawn. Being practical, he intends to keep them as souvenirs.

There were three times as many babies born in Madison during January as there were girl babies, according to the vital statistics report compiled by Village Clerk Peter Boehm. There were six boys and two girls.

Professor To Outline Status of Modern Novel

The question, "Is the novel a disappearing form of literature?" will be posed by Dr. Jereva Thurston, Saturday night at a University of Southern Illinois Alton campus student lounge.

Thurston, professor of English at Washington University since 1950, will talk about the status of the modern American novel and explain how to prepare novel stories for publication.

The public is invited to attend the Saturday lecture, scheduled for 8:15 p.m. in the Student Union lounge at 2800 College avenue, Alton, and the reception which follows.

Identification cards will be issued and plans for the coming year made, he said.

Foreign Language Lab 'Brain' At SWIU Center, E. St. Louis

The "brains" of a new foreign language laboratory which went into service at Southwestern Illinois University's East St. Louis Center this week is a remote control center with facilities for broadcasting 14 different pre-recorded tapes at the same time.

Used as a teaching aid for students of foreign language, the lab is the second to be installed at the university's area Campus. A similar language lab was put into use at the Alton Center in May 1961.

Dr. Helen D. Goode, a member of SIU's humanities division, is language lab coordinator. She explained that as many as 14 students can listen to one tape or 14 different tapes at the same time.

Students may select listening tapes or recording tapes on which are located blank areas for them to record phrases and words.

Operating Procedures

When the lab is being used either Dr. Goode or a trained student worker sits behind a console in the front room and controls the output of the remote center into any number of listening booths.

Each booth is equipped with a set of headphones for private listening and a microphone for use in recording on blank tape. From the console panel the coordinator can listen to the drill work of a student and speak to him through a microphone.

Russian, German, Spanish

Russian, German and Spanish are being taught in day and evening classes at the center this quarter, and the language lab

though it has been in operation only a few days, is a center of activity. It is currently being used 25 hours a week, and open at special evening and nighttime hours.

One of the benefits of the lab, Dr. Goode pointed out, comes from its function as a language drill master for students.

There is not much time in a 20-minute class period for a room of 32 students to participate in individual drill, recitation," she said. "But those same students can visit the language lab and have the benefit of a full hour's practice with their own private drill teacher on tape."

Hearing and understanding words and phrases are two of the first things a foreign language student must learn, Dr. Goode added. Right along with that comes practice in speaking and pronunciation. The new language lab with its pre-recorded tapes helps supplement the learning in the classroom.

Council Approves IMRF Credits For LeMaster

A resolution to give Second Ward Alderman Rufus LeMaster credit for added service credit under the Illinois Municipal Retirement Fund was approved Monday night by the Granite City council.

LeMaster, who was presiding in the absence of Mayor Davis, told the council he had to pay nearly \$800 to the council to receive the proper credit. Last week the city paid \$32 as its share for the years 1932-37.

The resolution calls for prior credit from the period May 1, 1943 to Dec. 31, 1947.

LeMaster told the council he recently began looking into retirement benefits extended to aldermen under IMRF and decided to secure prior service credit that he had not claimed.

Levee District Seeks Treatment Plant Bids

Sealed bids are being sought by the East Side Levee & Sanitary District for the construction of a primary sewage treatment plant in Cahokia to serve that city, Alorton, Centerville and most of Centerville town ship.

The plant is a portion of the district's pollution abatement system in St. Clair county being financed by a \$1,390,000 general obligation bond issue. It will have a 4.5-million-gallon-daily capacity and is designed for primary treatment of sewage to be carried by trunk sewer lines which are also to be constructed with funds from the bond issue.

Bids for construction of the plant will be received at the levee district's office, 2842 McCasland avenue, East St. Louis, until 10 a.m. Thursday, March 21, at which time they will be publicly opened and read.

Prospective bidders may inspect plans and specifications in the office of Horner & Shiffin, consulting engineers, 1221 Lo east street, St. Louis.

Street Crews Remove Ice; Cut, Trim Trees

A five-man crew of the city street department spent Monday clearing ice off the north half of the 2300 block of Delmar avenue.

While milder, above-freezing temperatures prevailed, thawing was slight, and the eight to 10-inch layer of ice and slush, covering nearly half the block, had to be scrapped up and hauled away.

The flooding resulted from the freezing and bursting of an individual home service line in the middle of the block early Sunday. The break was repaired Sunday afternoon by an emergency crew from East St. Louis & Intercity Water Co. and barricades with flasher lights were erected.

Other street crewmen this week, six men, trimmed trees, while two worked on catch basin repairs, two others serviced lift stations and two men were off sick.

Street crew chores also included cleaning cinders spread on streets during the siege of snow and ice.

① In the past ten years, wholesale prices for all commodities went up 20%; according to the Bureau of Labor Statistics. In the same period, prices of specialty drugs did not go up at all.
② Most modern drugs go down in price after sales and production increase. Salk vaccine, penicillin, and streptomycin are typical examples.
To fill any prescription, see one of our skilled pharmacists for personal, courteous service — at uniformly fair prices, always.
